Welcome, Earthling!

Thank you for incarnating on planet Earth. We know you have a choice as to which planet you live on during your physical lifetimes, and we are truly happy that you've chosen ours. This incarnation includes:

- * **One physical body** of the human variety
- * **One emotional body** of varying depths
- * **One mental body** of varying aptitudes
- * **One (semi-healthy) Earth planet** to reside upon
- * **One universe** in which your planet is housed
- * **One multi-verse** in which your universe exists

And at *no extra charge*, you will also receive:

- * **One set of (semi-functional) parents** who have volunteered to assist you in your mission during this lifetime
- * **One standard personality** within which will be stored your likes, dislikes, idiosyncrasies, temperament and style (or lack thereof)

Not included in your incarnation package:

A spiritual body. Although we *will* provide the integration of all three Earth bodies, you must bring your own spiritual body from Home.

Wait, there's more!

Your premium “Life on Planet Earth” package also includes:

***Unlimited* replacement bodies**

Should your body wear out before you’ve finished with the fun here on planet Earth, you may “turn in” your body at any time. A brand new body will be provided to you at no additional fee, and you may resume exactly where you left off.

Well, not *exactly* where you left off. You will be provided with a *brand new body* but it will be an “age zero” body—you’ll have to grow your body all over again. However, you *will* be provided all the same issues, concerns, stumbling blocks and emotional blockages you held when you turned in your old body—you won’t miss even a minute of the “reason you came to Earth.”

And once again, that’s not all! You’ll also receive:

***Unlimited* Lifetime Support**

To contact Support, you need only make a mental request. Although we *do* guarantee that every request for support will be filled, we do *not* guarantee receipt of the support we issue. For some reason Earthlings find it difficult to *receive* the support that we dispense. To increase your chances of actually *getting* the support you have requested, we suggest that you practice the following techniques: open your heart and mind and sit quietly, meditate, go within, listen to the messages your reality is sending you, and/or write in your journal.

Before You Begin Life on Earth

[SECTION REMOVED]

(Editor's Note: This section of the manual has been recently revised. Prior to the revision we included everything one needed to know in a "pre-life briefing." However, it became apparent that after arriving on the planet, the retention of this information was near zero. Therefore, we eliminated this section of the training and simply wish each new incarnate heading to Earth, "Good luck!"

Currently all planet Earth user-training takes place while residing on the planet. Although acceptance of the information is much lower, retention by those who do accept it has been vastly improved.)

Using Your Incarnation

You will learn most of what you need to know on planet Earth during your incarnation. However, it will be helpful to remember a few ground rules:

Ground Rules

1. Everything is you.
2. You are everything.

That's it! Good luck on planet Earth!

(Editor's Note: Really and truly that is all you need to know. However since these are new concepts to even repeat Earth-goers, we will elaborate on each of these rules.)

Everything is you.

Planet Earth is a highly advanced creative experience. We utilize state of the art holographic technology to produce a complete illusion—down to the tiniest microscopic detail. Planet Earth will seem very, very real during your incarnation.
